THE NEXT RAIN COMES FOR SURE!

The weather cannot be influenced, even with the best planning or greatest hope. So what to do? Be prepared for any weather with rainwear from Samoa Regenponchos!

For years Samoa Regenponchos e.U. has been a producer, distributor, and specialist, in the field of rainwear. We offer rainwear in many different designs (rain ponchos, rain coats, rain jackets, rain suits, bike ponchos, kids ponchos, biodegradable ponchos), different materials (PE, PVC, PEVA, Nylon, Polyester, Corn Starch), different colours and thicknesses, individually printed or unprinted. In our stock we carry a vast selection of unprinted rainwear, that can be sent out immediately, even in smaller quantities. Of course, our in stock products can also be branded through print, or can be complemented by adding paper inlays or stickers.

With individual productions we can fulfil your every desires in regards to realization of material, thickness, colour or printing technique. We always consider your requests and budget.

This catalogue is supposed to give an introduction to what is conceivable in producing rain wear, but the possibilities in creating individual rainwear are endless! The sky is the limit! No matter your requests, we can realize almost everything! Get in contact with us to receive professional advice.

Above all, our strengths are – the best price, comprehensive consulting, and flexibility. We are looking forward to your inquiries and orders!

Your team of Samoa Regenponchos!

Printing method:	silk screen printing
Print positions:	front/back
Printing size:	standard max. 25 x 30 cm (possible up to 90 x 90 cm for additional costs)
Printing data:	given by customer
Initial printing costs:	included in price
Packing unit:	1pc. in a transparent polybag / 50pcs. / carton
Carton meas.:	42 x 25 x 30 cm
Weight: N.W.:	11kg / G.W.: 12kg
Delivery time:	5-6 weeks air freight 12-13 weeks sea freight

Optional with special productions:

- thickness level 0,10– 0,40 mm possible
- depending on printing logo, other printing styles might be more suitable (digital print, heat transfer print, reflection print)
- hood-cords made from PP and collar buttons
- print on polybag (max. 8 colours), paper inlay or sticker (4 colours offset print)

BIO REGENPONCHO® STANDARD PRINTED ART.NO.: 2009

The certified bio rain poncho is made out of corn starch, and is therefore 100% biodegradable & compostable. Made from genetically-free corn starch. Rain poncho and printing colours according to the European Standard EN 13432, with the OK Compost quality seal. Within a few weeks (8-12) 100% biodegradable (CO₂ neutral) by decomposition into naturally occurring, renewable and non-toxic products.

2009  milky white

Minimum quantity:	1,000 pcs.
Material:	Corn-starch (mater-bi®)
Thickness:	0,025 mm
Size:	115 x 110 cm or 127 x 102 cm (W x H)
Weight:	85g
Packing unit:	16 x 11 x 1 cm
Ground colour:	milky white
Printing colours:	1 to 8 colours
Printing method:	flexo-printing
Print positions:	front/back
Printing size:	standard max. 30x 30 cm (possible up to 90 x 90 cm for additional costs)
Printing data:	given by customer
Initial printing costs:	included in price
Packing unit:	1pc. in a sealed bag made from corn-starch / 200pcs. / carton
Carton meas.:	44 x 34 x 20 cm
Weight:	N.W.: 15kg / G.W.: 16kg
Delivery time:	5-6 weeks air freight 12-13 weeks sea freight
Info:	quality seal "OK Compost" can be used free of charge

Optional with special productions:

- material thickness: 0,025 - 0,1 mm realisable
- depending on printing logo, other printing styles might be more suitable (gravure print)
- hood-cords made from mater-bi® or cotton
- sleeves can be added (with or without elastic band)
- print on sealed pouch (max. 8 colours), recyclable paper inlay (4 colours offset print)

-  **Rain poncho with hood**
-  **One size for adults**
-  **Size: 80" x 50" / 127 x 102 cm**
-  **Thickness: 0,025 mm**
-  **Breathable & light**
-  **Tear resistant & reusable**

ADDITIONAL INFORMATION BIO-REGENPONCHO®

The rain poncho made from corn starch not only protects reliably against rain, but is also a sustainable, environmentally friendly and breathable material alternative to the usual PE disposable rain poncho which is made from conventional plastic based on the fossil raw material petroleum.

The certified organic rain poncho, on the other hand, is made of the certified bioplastic - „MATER-BI“, which is extracted from the renewable raw material corn-starch.

The corn-starch is obtained from non-genetically engineered corn grown in Europe.

MATER-BI, from which the BIO rain poncho is produced, is a granulate obtained from the Italian company Novamont, the pioneer in the field of bioplastics with over 800 sponsors and various awards.

The BIO rain poncho is fully biodegradable and compostable under composting conditions, within 8-12 weeks. The process is carried out with the help of micro-organisms, so that only water and compost remain. Even a degradability of MATER-BI made products in the sea has been tested and confirmed. The degradation time here is 34-38 weeks. Whether composting or burning - the organic rain poncho is CO₂-neutral.

The 100% biodegradability and composability of the BIO rain poncho, as well as the used print colours, is confirmed by the seal of approval „OK Compost“, issued by the world-renowned institute Vinçotte in Belgium. The test method of the seal of approval is based on the European standard DIN EN 13432. The printing of the seal of quality on the poncho, the packaging or the paper inlay is allowed to be used at your disposal.

Like the classic PE rain poncho, the BIO rain poncho is light, durable and can be used several times. Compared to the PE poncho, however, it is breathable / water vapour permeable. Which means that you won't work up a sweat in the BIO rain poncho!

The BIO raincoat can be stored in a dry and cool place for up to 2 years.

For printing, flexo- and gravure printing with certified water-based inks are used, so that an overall ecological product can be offered.

By default, the BIO rain poncho is packaged in a sealed shut bag of the same material. The bag can also be printed or complemented with an insert of recycled paper, which can be sealed in this bag.

- **breathable**
- **naturally renewable material**
- **100% biological compostable and degradable**

POLYESTER RAIN PONCHO ROUND PRINTED ART.NO.: 2010

This polyester rain poncho offers perfect comfort for any outdoor activity. Washable and re-usable multiple times. Equipped with a zipper closure, press button in the hood, as well as a rainproof pocket with cord closure on the front. Rain poncho can be folded into this pocket.

Next to pantone

Minimum quantity:	1,000 pcs.
Material:	190T polyester with PU coating
Size:	127 x 110 cm(W x H), round cut, one size fits all
Weight:	258g
Packing unit:	23,5 x 20 x 1,5 cm
Ground colours:	next to pantone at no additional costs
Printing colours:	1 to 8 colours
Printing method:	silk screen printing
Print positions:	front/back
Printing size:	standard max. 30 x 30 cm (possible up to 90 x 90 cm for additional costs)
Printing data:	given by customer

USE OUR RAINWEAR FOR EFFECTIVE ADVERTISING!

As specialists, besides our standard productions, we offer custom made productions as well. With custom made productions we can fulfil your every wishes in regards to design, material, thickness, packing, and printing technique options. In custom made productions many different combinations of design ideas are possible. Your ideas are realized in close collaboration, with importance also placed on your budget.

The delivery time with custom made productions is 5-6 weeks (air freight), and 12-13 weeks (sea freight).

No matter your ideas, we can realize almost anything! Get in contact with us and let us advise you individually! Together we can realize your ever so specific requests!

MATERIAL OPTIONS

PE / POLYETHYLEN

PE is the most used material for rain ponchos. This material is foremost used for the classic emergency rain poncho, used especially for outdoor festivals. This material could be used multiple times.

The standard thickness level is 0,02 mm.

Thickness possibilities:	0,02 – 0,04 mm
Surface:	smooth
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP, or PE. Elastic band in sleeve.
Printing techniques:	silk screen print (up to 5 colours), flexo-print (up to 8 colours), gravure print/all-over print (up to 8 colours)

PVC EMBOSSED / POLYVINYLCHLORID EMBOSSED

PVC is a higher quality material than PE. PVC can be re-used multiple times. The surface of PVC embossed is structured, which means that not every printing technique is applicable.

The standard thickness level is 0,10 or 0,12 mm.

Thickness possibilities:	0,10 – 0,40mm
Surface:	structured
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP / collar buttons
Printing techniques:	silk screen print (up to 5 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour)

PVC COATED / POLYVINYLCHLORID COATED

PVC coated is a higher quality material than PVC embossed. PVC coated can be re-used multiple times and is more tear resistant than PVC embossed. The surface of PVC coated is smooth, which means that every printing technique is applicable.

The standard thickness level is 0,10 – 0,12 mm.

Thickness possibilities:	0,10 – 0,40mm
Surface:	smooth
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP / collar buttons
Printing techniques:	silk screen print (up to 5 colours), flexo-print (up to 8 colours), gravure print/all-over print (up to 8 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour)

MATERIAL OPTIONS

EVA OR PEVA EMBOSSED / ETHYLEN-VINYLACETAT-COPOLYMER

EVA or PEVA embossed material is smoother and more comfortable to wear than PVC materials.

The surface is structured, which means that not every printing technique is applicable. It can be used several times.

The standard thickness level is 0,10 – 0,12 mm.

Thickness possibilities:	0,10 – 0,40mm
Surface:	structured
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP / collar buttons
Printing techniques:	silk screen print (up to 5 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour)

EVA OR PEVA COATED / ETHYLEN-VINYLACETAT-COPOLYMER

Compared to the plastic materials which have been explained before, PEVA coated is the softest, lightest and most comfortable material to wear, among these. The surface is smooth, which means that every printing technique is applicable. The material is tear resistant, compact and can be used several times. The standard thickness level is 0,10 – 0,12 mm.

Thickness possibilities:	0,10 – 0,40mm
Surface:	smooth
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP / collar buttons
Printing techniques:	silk screen print (up to 5 colours), flexo-print (up to 8 colours), gravure print/all-over print (up to 8 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour)

POLYESTER

Polyester with PU or PVC coating, is one of the highest quality fabrics, as well as an effective rain protection (up to 10.000 water colum). Polyester is comfortable to wear, and forms to the body. Of course, polyester is re-usable and washable.

Various different design options and printing techniques are possible. The standard thickness level is 190T polyester.

Fabric possibilities:	190T / 210T polyester, 190T/210T Nylon
Surface:	woven
Models:	standard without hood-cords, comfort with hood-cords and press buttons, zipper closure, pockets with cord or zipper closure.
Size:	every size realizable
Design options:	press buttons made from plastic or metal
Printing techniques:	silk screen print (up to 5 colours), flexo-print (up to 8 colours), gravure print/all-over print (up to 8 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour), sublimation print (up to 8 colours)

MATERIAL OPTIONS

PU / POLYURETHANE

PU is a high quality material that is absolutely tear resistant, rainproof, washable and is re-usable.

Seam is sealed shut. The standard thickness level is 170g/m².

Material:	170g/m ² , 190 g/m ²
Surface:	smooth
Models:	jacket or coat
Size:	every size realizable
Design options:	press buttons made from plastic or metal, zipper closure, pockets, hood-cords, inside lining
Printing techniques:	silk screen print (up to 5 colours), gravure/all-over print (up to 8 colours), fluorescent print (up to 1 colour), reflective print (up to 1 colour)

CORN-STARCH / BIO-PLASTIC

Bio-plastic does not only keep you dry, but ensures that the environment is not harmed, and that the notion of sustainability is maintained. This material is made out of certified organic corn-starch and is therefore a sustainable and environmental friendly alternative to the regular PE material, which is made out of crude oil. The assurance that this material is 100% biodegradable & compostable according to European standard DIN EN 13432 is given by the "OK Compost" certificate. The material is tear resistant, rainproof, and re-usable. The standard thickness level is 0,025 mm.

Material:	Corn-starch (mater-bi®)
Thickness possibilities:	0,025 – 0,10 mm
Surface:	smooth
Ground colour:	only milky white (ground colour cannot be dyed, since product attribute will be lost)
Models:	standard, comfort (with sleeves)
Size:	every size realizable
Design options:	with or without hood-cords from PP, or cotton
Printing techniques:	flexo-print (up to 8 colours), gravure print/all-over print (up to 8 colours)

PRINTING TECHNIQUES

SILK SCREEN PRINT

Is the most common printing technique, since it is cost-efficient and realizable quickly. It is done by hand. The application of silk screen print is limited. It's not possible to print more than 5 colours, gradients or shadows. Elaborate and detailed logos are not suitable. With silk screen print logo might display micro fissures.

FLEXO-PRINT

Is a machine print, where more elaborate and detailed logos are realisable, in a more exact way.

GRAVURE ALL-OVER PRINT

Is a machine print where complex logos or all-over motives can be realized. Full area of the rainwear can be printed. Gravure is a higher quality print than flexo-print.

HEAT-TRANSFER PRINT

With this print, every small detail can be printed. Logo is printed on a carrier foil, which is then pressed onto the rainwear. With heat-transfer print fine motives with colour gradients and shades can be printed.

PRINTING TECHNIQUES

DIGITAL PRINT

With this print colour gradients and shadows can be printed in a perfect way.

REFLECTIVE PRINT

As soon as light hits this print – it reflects. This printing technique can be combined with others.

FLUORESCENT PRINT

This print is produced with a special colour whereas only under UV-light the print becomes visible. This printing technique can be combined with others.

SUBLIMATION PRINT

With this print the print motive is vaporized into the material. This print is on the expensive side, but is of high quality since every ever so fine motive can be printed.

PACKING OPTIONS

OFFSET PRINT ON THE PAPER INLAY / STICKER

To use the packaging of the rain poncho for effective promotional purposes, add a printed paper inlay or sticker.

DETAILS PAPER INLAY:

Print:	4 colour offset print, one-sided or two-sided
Quality:	170g/m ² paper, matt or shiny
Print size PE rain ponchos:	8,5 x 12,5 cm
Print size PVC rain ponchos:	14,8 x 21 cm
Minimum quantity:	50 pcs.

DETAILS STICKER:

Indoor sticker:	90um sticky paper
Outdoor sticker:	90um with PVC film and UV varnish
Print:	4C offset onesided / twosided
Printsize sticker:	max. 8,5 x 12,5 cm

Paper inlay & sticker possible with in-stock products as well as special productions

PRODUCT EXAMPLES

RAIN PONCHO - 3000

Material: 0,02 mm PE
Size: 127 x 102 cm (W x H)
Print: silk screen print

RAIN PONCHO - 3001

Material: 0,02 mm PE
Size: 127 x 102 cm (W x H)
Print: Gravure print (shadows) and silk screen print (logo)

RAIN PONCHO - 3002

Material: 0,025 mm PE
Size: 127 x 102 cm (W x H)
Print: silk screen print

STRIKE VEST - 3003

Material: 0,07 mm PE
Size: 84 x 96 cm (W x H)
Print: silk screen print

PRODUCT EXAMPLES

RAIN PONCHO - 3004

Material: 0,03 mm PE
 Size: 127 x 102 cm (W x H)
 Design: rain poncho hood + body possible to dye in different colours

RAIN PONCHO - 3005

Material: 0,03 mm PE
 Size: 115 x 110 cm (W x H)
 Print: gravure print

RAIN PONCHO LONG - 3006

Material: 0,03 mm PE
 Size: 123 x 120 cm (W x H)
 Print: gravure print

RAIN PONCHO - 3007

Material: 0,03 mm PE
 Size: 115 x 110 cm (W x H)
 Print: gravure print

PRODUCT EXAMPLES

RAIN PONCHO ROUND - 3008

Material: 190T polyester with PU coating
 Size: 130 x 90 cm (W x H)
 Design: press buttons in collar are made out of metal, pocket on poncho front with zipper closure, extra-long hood, reflective seam

RAIN PONCHO ROUND - 3009

Material: 190T nylon with PU coating
 Size: 50 x 105 cm (W x H)
 Design: pocket on poncho front with Velcro closure, drawstring with stopper in hood, as well as extra Velcro closure in collar area.

The pocket on the front also serves as packaging – the poncho can be packed into it..

RAIN PONCHO T-SHIRT - 3010

Material: 190T Nylon with PU coating
 Size: 72 + 77 cm sleeve x 100 cm (W x H)
 Print: sublimation print
 Design: Velcro closure in collar area + hood cords

RAIN PONCHO ROUND - 3011

Material: 190T polyester with PVC coating
 Size: 90 x 110 cm (W x H)
 Design: metal press buttons in collar area as well as hood ruffle

PRODUCT EXAMPLES

BICYCLE PONCHO - 3012

Material: 190T polyester with PVC coating
 Size: 127 x 132 cm (W x H)
 universal size (suitable for any bicycle)
 Design: press buttons in collar area, hood
 cords + extended hood

RAIN PONCHO - 3013

Material: 190T polyester ripstop with PU coating
 Size: 144 x 112 cm (W x H)
 Design: hood cord with stopper, loop (so poncho
 can function as tent as well)

RAIN PONCHO ROUND - 3014

Material: 0,10 mm PEVA coated
 Size: 130 x 110 cm (W x H)
 Design: press buttons in collar area, hood-cords

RAIN PONCHO ROUND - 3015

Material: 0,12 mm PEVA coated
 Size: 142 x 96 cm (W x H)
 Design: press buttons on poncho
 front + sown hem

PRODUCT EXAMPLES

RAIN COAT - 3016

Material: 0,14 mm PEVA coated in 3D optics
 Size: 53 + 72 cm sleeve x 100 cm (W x H)
 size S - XXL
 Design: press buttons on poncho front,
 hood-cords

RAIN COAT - 3017

Material: 210T Nylon with PU coating
 Size: 56 + 72 cm sleeve x 88 cm (W x H)
 size S - XXL
 Design: press buttons, pockets, and hood-cords

RAIN JACKET - 3018

Material: 190T polyester with PU coating
 Size: 63 + 80 cm sleeve x 82 cm (W x H)
 size S - XXL
 Design: zipper closure, pocket on poncho front,
 pocket with press buttons, drawstring
 closure with stopper

RAIN PONCHO ROUND - 3019

Material: 190T polyester with PU coating
 Size: 127 x 102 cm (W x H)
 Design: zipper closure, pocket on poncho front
 with drawstring closure, press buttons
 in hood

*The pocket on the front
 also serves as packaging
 – the poncho can be
 packed into it..*

PRODUCT EXAMPLES

RAIN PONCHO - 3020

Material: 0,14 mm PVC coated
 Size: 127 x 102 cm (W x H)
 Print: silk screen print on poncho and bag
 Design: pocket on poncho front side with press button closure

RAIN PONCHO ROUND - 3021

Material: 0,14 mm PVC coated
 Size: 125 x 102 cm (W x H)
 Print: gravure print
 Design: on poncho back hook for hanging

RAIN COAT - 3022

Material: 0,16 mm PVC embossed
 Size: 60 + 79 cm sleeve x 115 cm (W x H)
 size S – XXL
 Print: silk screen print
 Design: with press buttons in front as well as hood-cords

SPECIAL PACKING- 3023

Material: PVC
 Print: tampon print or digital print

PRODUCT EXAMPLES

RAIN PONCHO - 3024

Material: 0,03 mm PE
Size: 115 x 110 cm (W x H)
Print: gravure print

RAIN PONCHO SPECIAL - 3025

Material: 0,03 mm PE (almost see-through)
Size: 80 + 96 cm sleeve x 130 cm (W x H)
(sleeve with elastic band)
Print: gravure print

KIDS RAIN COAT - 3026

Material: 210D Oxford Fabric with PU coating
Size: 50 + 56 cm sleeve x 70 cm (W x H)
Print: silk screen print
Design: press buttons, pockets, sleeve + hood ruffled

RAIN JACKET - 3027

Material: 190g/m² PU (Polyurethane)
Size: 63 + 80 cm sleeve x 82 cm (W x H)
size S - XXL
Design: zipper closure, press buttons, pockets with Velcro closure, with polyester inner lining
